

Yes! Please send me a Playground Planning Kit.

If you are planning a playground project, Habitat Systems would like to assist you.

We offer a wide range of school specific services, including complimentary CSA approved designs, fundraising ideas, grant information, and on-site visits to assess your needs (details included in our Playground Planning Kit). After design options have been created based on your school's specific needs, we will provide you with 3D colour posters of what your structure will actually look like.

To request a no obligation, complimentary Playground Planning Kit to start your project today...
